WO DIAMOND PROJECT, LAC DE GRAS, NWT BULK SAMPLE DRILLING BEGINS AT DO-27

Dentonia Resources Ltd. ("Dentonia") has been advised by Peregrine Diamonds Inc., the operator, that bulk sample drilling, at the plus nine hectare DO-27 kimberlite pipe, began today. The bulk sample is being extracted via large diameter (24") RC drilling that is being operated by the Ensign Group, Encore Coring & Drilling Division, 24 hours per day.

At present there are three drill rigs operating at DO-27, two core rigs and one large diameter RC rig. A third core rig and a second large diameter RC rig are being mobilized to arrive on site this month.

The bulk sample will be extracted by mid-April, 2006 and processed at the Test Sample Plant at BHP Billiton's Ekati™ Diamond Mine located 50km N.W. of DO-27.

More information regarding the bulk sampling program will be released as the program progresses.

Dentonia has a 1/3 equity interest in DHK Diamonds Inc. which has a 20% interest in the WO Diamond Project.
